

# IP Copilot

Invent Better. Faster.

[ipcopilot.ai](https://ipcopilot.ai)

IP Copilot was built for inventors, by inventors. Our team has submitted thousands of invention disclosures, securing hundreds of patents. We built IP Copilot to help patent teams discover and capture the best innovations faster and easier than ever before. Everyone should have opportunity to become an inventor. **Let us be your copilot along the way.**

## Key Features & Benefits

### Our Value Proposition

- Never miss an idea
- Increase inventor reach
- Higher disclosure quality
- Instant & free prior art searches
- Instant scoring
- Instant tagging & summary

### Faster, Better IP Coverage

- Real-time idea & inventor discovery via discussions
- Instantly prompts inventors to share disclosure
- Dashboard for trending ideas & inventors into existing management tools for your disclosures

### Simple, Robust Disclosures

- Inventor completes only two fields
- AI asks questions in real-time to encourage more detail
- AI enhances disclosure with summary, scores, tags, USPTO class, eligibility analysis, instant prior art search, and more

### Instant Prior-Art Searches

- Identifies related patents and internal disclosures
- Determines relevancy scores for quick review
- AI highlights differences between disclosure and prior art

### Privacy & Security

- Your data never used for training AI
- Your data is never available to another company
- Enterprise-grade security and confidentiality
- Our Trust Report [trust.ipcopilot.ai](https://trust.ipcopilot.ai)

### Easy to Deploy & Integrate

- Deploy on premise, in the cloud, or we host
- We provide free white glove data transfer
- Simple to integrate via API
- We assist with any integrations

With just **2 form fields**, IP Copilot instantly generates an **enhanced disclosure** with:

- Summary of the invention
- Scores for quick decisioning
- Subject matter tags
- Instant prior art search & analysis
- USPTO classification
- Eligibility analysis
- Business value analysis
- Detailed list of advantages and disadvantages
